**New Game of Chance Brings “*Stroke of Luck*”
To CMAA 2019**

ROCKFORD,IL – A new game of chance called Stroke of Luck™ will be one of the featured exhibits (Booth #1235) at the Club Management Association of America’s **World Conference & Club Business Expo** in Nashville, Feb. 24-28. Stroke of Luck combines the skills of putting with games of chance, such as Poker, 5-Card Draw, Texas Hold’em and Euchre.

Played on a high-grade woven mat, Stroke of Luck players putt for the best 5-card hand on one of two custom mats, featuring a representative 52-card deck, complete with four wild cards. The roll of a jumbo die determines one of six tee positions to begin the game. “Stroke of Luck’s championship putting surface boasts a stimp rating of 11-13”, says co-creator and golf aficionado Tom Muldowney, President of 2Skills, LLC.

“Club Managers are constantly pursuing new value-added services for their members, as well as additional revenues for their club”, explained Muldowney. “In fact, nationwide, clubs encountered 55 more rain/weather-impacted play days in 2018 than in the previous year”, he added. Everyone at CMAA 2019 will be able to experience how Stroke of Luck becomes a great tool for entertaining members and customers, year-round, from the the senior golfers to the young golf enthusiasts. Even those who have never golfed are intrigued by the game of chance aspect.

This all-inclusive game includes a choice of the Executive Mat (3`x9`) or the Club Model Mat (4`x12`), game rules & official scorecard, jumbo die and rugged canvas carry/storage bag. Add a putter and sleeve of golf balls, available as a bundle option. Stroke of Luck also offers an area for custom logo imprint and is easy to store and maintain.

For convenience, Stroke of Luck can be played on any flat surface, indoors or out, reinforced with a durable rubber backing. This combination game of skill and chance features such ‘hazards’ as out of bounds, and ‘putt again’ (or fold’em).

“Our goal is to have a Stroke of Luck in every country club, resort and sports bar in the country”, Muldowney said with a smile, adding “We even have licensing opportunities available to anyone who would like to join the society”.

Stroke of Luck was introduced to the golfing world in January, as part of the PGA’s annual Merchandise Show in Orlando to rave reviews.

About 2Skills,LLC

2Skills LLC, a group of golf aficionados who also appreciate the skill and chance of playing cards. Stroke of Luck merges the skills of putting and the innate thrill of chance and poker. Stroke of Luck is the only game to actually replicate the hand you’ve been dealt based on your skill in putting.
